TAZZA D'ORO

The Tazza d'Oro blend is made from eight meticulously selected Arabica and Robusta varieties. This blend has been a favourite in cafés for decades because of its wonderful properties of compact and persistent creaminess, floral aroma, sweet and honey flavour.

Its distinctive selection is based on a combination of the great, sweet Central American Arabica beans with the best Brazilian Santos varieties.

GRAN CREMA

This blend is designed to cater to lovers of rich, creamy coffee. At its heart are the most fragrant and full-bodied Arabica beans, such as natural Ethiopian coffee beans, Santos beans from the Cerrado area in Brazil, and washed coffee beans from the Horn of Africa. In addition, the qualities of the dense, long-lasting crema are emphasized by washed Robusta beans from Indonesia and Central America.
